## **CITY WINDMILLS HOLDINGS PLC. – Strategic Partnership with Qi-Energy, Dubai**

City Windmills have entered into a strategic partnership with Dubai based Qi-Energy, to develop, promote and sell vertical axis wind turbines in the Middle East. The venture will see the launch of first cloud based portal for capturing real time regional data from a number of regional pilot projects. The collaboration with Qi-Energy will also help drive the development of a manufacturing base in the region to service the wider MENA market.

Qi Energy is a renewable energy products and services enterprise which focusses on pioneering solar and wind energy technologies across the Middle East. In 2015 the Dubai Clean Energy strategy was launched, with the aim of producing 75% of the regions power from renewable energy sources by 2050, with a budgeted cost of US\$ 160 billion.
