CITY WINDMILLS UPDATE –
IFSA Research Report and 6% 5-year debenture offering

City Windmills Holdings PLC (“CW”) is pleased to present an Investment Research Report compiled by IFSA, its Corporate Advisor, which is accessible on CW's web-site. This research report is timed in conjunction with CW's announcement of a placement of up to GBP 1 million of Debentures, with a 6% coupon and 5-year maturity, either privately through crowd-funding or via a possible application to list the debentures on the GXG Markets A/S via Beaufort Asset Clearing Securities Ltd., as the broker, for the issuance.

CW has also applied for design protection on its vertical axis wind turbine with the European Union Trade Marks and Design Office, and the Swiss patent Office and therefore is now "patent pending" (this follows its application for design protection with the US Patent & Trademark Office earlier this year).

Yves Gut has stepped down as Director to pursue other business interests - the Board thanks him for his contribution over the last 4 years.

In partial lieu of management compensation for 1Q2015, the directors and management received shares priced at Euro 3.00 per share. The issued share capital of the company is now 1,575,476 shares.

For further information, please contact the company on info@city-windmills.com

David Mapley
Chief Executive Officer
pp City Windmills Holdings PLC.
